

H.K. Steel Limited - Providing Quality Services while Preserving Our Environment

鴻基不銹鋼有限公司 – 提供優質服務同時保護我們的生活環境

H.K. Steel Limited, rather than solely a distributor of high quality stainless steel products, is devoted to promoting a sourcing partnership between our business and building services professionals, and achieving a unique balance among the needs of community, our business partners and our environment.

鴻基不銹鋼有限公司，不只提供各種不銹鋼製品及建材，更致力於促進與建造服務業之間的合作關係和達到社區、商業夥伴們和我們生活環境之中的需求達到了獨特的平衡

Stainless steel is a green product. It is 100% recyclable into same product with no reduction in quality and it is not tagged on toxic materials. Therefore, it is less harmful to environment and health than many other materials in common use. The excellent hygienic properties are recognized by its applications including surgical instruments, potable water system, food and drink processing, etc. In addition, U.S. Green Building council and many other similar institutes also recognize the environmental benefits of using such a high recycled content materials. 'H.K. Steel Limited believes foresight and planning are the keys to an improved quality of life, and we feel that we have achieved a unique balance among the needs of our community, our business partners and our environment.' Mr. Kenneth Wong said, General Manager of H.K. Steel Limited.

In particular, one of the prominent benefit of stainless steel is its expected lifetime is generally more than 50 years, longer than other typical competing materials. Other advantages included: corrosion resistance with high strength, ductile, easy for installation, no maintenance is required after installation, and high residual scrap value at the end of its useful life as it is fully recyclable. Although initial costs may be slightly higher than other competing materials, the economic benefits of using stainless steel increase over time and all these costs are discounted back to present day values.

H.K. Steel Limited was built on the quality of its services. The company understands the great responsibilities that contractors, designers, and architects bear for their projects. Therefore, all H.K. Steel staff members are highly trained so that they can offer solid technical knowledge of all company's products as well as their applications and relevant industry regulations. In 2005, H.K. Steel has attained ISO 9001, the ultimate symbol of H.K. Steel's true dedication to quality.

H.K. Steel Limited has been in business since 1994 and handling a wide range of stainless steel products from potable water pipes and fittings, sheet, wires and bars to welding wires and rods. The major projects recently we have participated included: Design Construction of Tamar Development, Replumbing Works at On Ning Garden, Tseung Kwan O Sport Ground (Area 45), Replacement & Rehabilitation of water Mains stage 3 (Contract no.: 3/WSD/08) and several other projects in Hong Kong.

Nowadays, stainless steel products are found everywhere, its applications ranging from construction sites to kitchen and bathroom. The prevalence of stainless steel is ascribable to its benefits give rise to both environmentally and economically.

鴻基不銹鋼有限公司成立於 1994 年，提供各種不銹鋼製品，包括喉管、水管、鋼片、線材、鋼條、焊絲及焊棒。憑著豐富經驗及靈活性，鴻基不只滿足設計師、建築師及發展商的不同需要，更藉卓越的技術水平及效率，成為業界的合作夥伴。我們最近曾參與過的主要項目包括：Design Tamar Development、Replumbing Works at On Ning Garden、Tseung Kwan O Sport Ground、Replacement & Rehabilitation of water Mains stage 3 (Contract no.: 3/WSD/08) 和幾個其他在香港的項目建築。

今時今日，不銹鋼喉管、水管已是業界最普遍使用的建材，它的應用範圍從建築地盤到室內的廚房和衛生間。它的流行是歸因於它對環境上的和經濟上的好處。不銹鋼是一種綠色產品。它是 100% 可循環再用而沒有減低其再用的質量，而且不會釋放出毒素。所以，較許多其他同類型材料中對環境和健康沒有造成傷害。

優秀的衛生特質令不銹鋼廣泛被應用，當中包括外科器具、食用水系統、食物和飲料處理等等。另外，美國 Green Building Council 和許多其他國家同類型的機構也廣泛提倡使用循環再用的材料對環境改善著實有很大的幫助。

「遠見和計劃是提升生活水平的鑰匙，我們鴻基會持續在社區、商業夥伴們和我們的環境之中的需求達到了獨特的平衡。」黃先生，鴻基不銹鋼有限公司總經理說。此外，另一個使不銹鋼較為突出的好處在於它的生命周期比其他一般同類型的材料為長，一般超過 50 年。其他的好處包括：耐腐蝕性與高強度，耐用，容易安裝和低維修。雖然初始成本也許稍高於其他競爭材料，但卻能大大減少在維修、管理、環境持續性及衛生等方面的長遠成本。

鴻基以客為本，公司業務建基於優質的服務。鴻基深切了解到承辦商、設計師和建築師發展項目時所承擔的責任，所以全體員工皆是訓練有素，對公司的所有產品及應用技術，以及相關的行業法例，都擁有豐富知識。2005 年，鴻基已獲得 ISO9001，是該公司質量的佐證。
